

Welcome to HASPR

We're so glad that you have been shortlisted! This guide is meant to provide assignments to evaluate you based on your performance.

ASSIGNMENT

Overview

We have provided you with some assignments in particular domains in which we are looking for interns. You have to choose **any one assignment** according to the skills and experience you have mentioned in your profile. You can also go for more than one assignment.

ASSIGNMENT #1

Tour Booking API (Backend)

In this assignment you have to create an **API** for the Tour booking web app.

The web app consists of two parts : **User Interface and Admin Interface.**

User

User Signup

- Ask for Email, Name, Password

User Login

- Login using email/password
- Logout and update password

User Activity

- User can easily book a tour
- Can sort tour on the basis of date review
- Cancel booking within 3-4 of booking

Admin

Admin Login

- Login using email/password
- Logout and update password

Admin Activity

- Add or remove tour
- Delete or disable any user
- View users activity (user's booking and reviews)

Tour Modal

- Name of the tour
- Date of the tour
- Picture
- Place
- Description
- Reviews (Comments, ratings)
- Maximum booking allowed

Authentication

Authentication using **JWT**

Extras

Email verification, email notification

OTP verification

You can also add other features according to your choice (extra marks will be provided).

ASSIGNMENT #2

Demo Website (Frontend)

In this assignment you have to create a **frontend** for the given Ui (Calls redirect).

You can download the figma file from [here](#). Import the .fig file in figma and download the required assets.

Task

- The website should be **responsive** for both desktop as well as on mobile phone.
- You can also use animations of your choice to give it a better experience
- Try using **NEXT.JS** and **SASS**.

ASSIGNMENT #3

UI/UX Design (Designing)

In this assignment you have to redesign the **UI/ UX** of a mobile application provided by us .

You can download the figma file from [here](#).

Task

- Use your creative skills to **redesign** the UI /UX.

Assignment Delivery

For **Assignment 1** and **Assignment 2** you have to create a public github repository and share with us on contact@haspr.in

For **Assignment 3** either you can share the images or figma file with us on contact@haspr.in

Time Period

Last date to submit the assignments : **7 Nov 2021 11:59 PM**
